Subd to the Secretary

Krishnappa and others ryots
of the Hessarghatta village
pray that as before water
for irrigation purposes
may be supplied to them
from the Hessarghatta tank.
Till recently the petitioners
were being allowed the
use of the leakage water.
Under 27 dated 14th Dec'95
(Copy enclosed), the allowance
of water was withheld
as the civil and military
station also had to be
supplied with water. As
per G.O No 135-9-60 dy 6th
RA 166-93
August 96 (copy enclosed),
pensing the re-classification
of the lands by the Survey
Dept, Betterment rates were
ordered to be imposed,
which the petitioners have
been paying since.

It is not known what
progress has been made
by the Survey Dept in
the matter of re-classification

In these circumstances, may (1) an endorsement be given to the petitioners rejecting their request and (2) may a reminder be sent to the Survey Dept. ?

I think so.

C.

The Dy Commr & the Executive Engineer are not in favour of allowing the leakage to continue as the water-supply may run short.

ABSTRACT.

State that on learning that their lands would not be supplied with water from Hesaraghatta tank they on 27-11-95 prayed Her Highness the Maharani by wire to issue orders to supply water to their lands as heretofore by their late Highness on 13/9/95 and that as no orders have yet been issued in the matter they are put to much difficulty and have sustained heavy loss. Pray that early and favorable orders may be issued.

ABSTRACT.

State that they represented to H. late H. that their lands below Hesarapalli tank might as usual be supplied with water. that on 13-7-93 H. late H. promised compliance with their request. that on 27-11-95 they telegraphed to Her Highness for the fulfilment of late H's. promise. that on the same date they also submitted a petition to the Councillors. that in reply they were favoured Endorsement No. 1836-46-1-96 to the effect that they had prayed that without claiming for the water of the tank for cultivation purposes they might be permitted to enjoy the land below the tank on reduced assessment and that promise had been given to comply with their request

that they did not want water - that on 10-4-95 they submitted a petition to the Dy. Comr. praying that water might be supplied for their crops as promised by H. H. - that in reply they were granted Endorsement No. 1070 of 13-11-95 to the effect that the Ex. Engr. in charge of the Water Supply Division had written docket No. 2373 of 16-10-95 stating that the Chief Engineer had been written to about the lands below the tank being supplied with water - and that he would be written to on receipt of a reply from the above officer - that the Ex. Engineer would not have written the above docket if H. late H. had declined to supply their lands with water - that moreover the foot. would not have attempted to provide irrigation sluices to the tank and would not have recovered the usual rate of Kandayam from them since the tank was breached if they had declined to supply them with water - that on 18-1-96 they submitted a petition to Her Highness - that in reply they were granted Endorsement No. 506 of 22-1-96 stating that their petition had been sent to the Rev. Secretary to Govt. for disposal & that the above officer has not favored them with any orders in the matter.

Pray that their request may be complied with by directing the authorities to supply their lands with Hesaraghatta tank water -

ABSTRACT.

Petition addressed to Her Highness the Maharanee Regent.

States that they submitted 2 petitions on 15-1-96 and 15-3-96 respectively regarding the water supply to their lands below the Hesarghatta tanks; for which they were given cowles Nos. 516 and 659 dated 22-1-96 and 31-3-96 respectively informing them that their petitions had been sent to the Secretary Land Revenue for disposal.

Pray that the same may be disposed of early as they are put to much loss for want of water supply to their lands.

Secretary to the Govt. of Mysore
Bangalore

MOST RESPECTED SIR—

We the residents and ryots of the Hesarghatta village, Nelamangala Taluk, most respectfully beg to represent the following facts to Your honor with the full hope that they will meet with a favorable result at Your honor's hands.

1. We were from time immemorial raising garden and wet crop at a very large outlay below the Hesarghatta tank utilizing the water of this tank for the purpose. In 1893, the Engineering Department undertook the extension of the tank both for the purpose of supplying the Bangalore City with water and for affording facilities to the cultivation of our wet lands below it. His late Highness the Maharaja was then pleased to pay a visit to this village for the inspection of the tank on which occasion we who were afraid that we might not be allowed the free use of the water for cultivation purposes, prayed His Highness to order the authorities to give us free use of the same. His Highness was graciously pleased to say that we would not only be allowed to utilize the tank water for the cultivation of our wet lands, but that the tank was being extended with a view mainly to make its water available for more wet cultivable and that we need not fear a break of this promise. True to this word, the tank was instantly put into repairs on a large scale and 2 irrigation sluices have also been of late constructed.

2. After the completion of the repairs, we were given to understand that the water of the tank would not be allowed for cultivation purposes and we at once petitioned to ~~Your~~ Her Highness by means of a telegram and to ~~Your~~ Her Highness' Private Secretary and to the Deputy Commissioner by means of written petitions. In reply the Private Secretary was pleased to grant us endorsements No. 516, 659 and 797 dated 22nd January 31st March 1896 and 20th May respectively stating that our petitions have been referred to the Secretary, Land Revenue Department for disposal and from the Deputy Commissioner. We received an endorsement No. 107 dated 13th November 1895 stating that the Chief Engineer was addressed in the matter by the Executive Engineer in his docket No. 2373—978 dated 16th October 1895 and that on receipt of a reply thereto, a seperate reply would be given to us.

3. We then presented on 28th ~~November~~ April 1896 a petition on the same subject to the Secretary, Land Revenue Department and this has not been favoured with any orders. Meanwhile the Dewan was gracious enough to pay a visit to the place and we took this opportunity to lay before him our grievance that if we are not allowed the use of the tank water for the cultivation of our lands, we would be hard up for our livelihood and the Dewan was pleased to say that the matter was in consideration of the Government and to order that in the meantime we could use the water

flowing through the irrigation sluice for our purpose and even since we have been doing so and eking out our livelihood.

4. We now beg to represent that we hear the Engineering Department is intending to close the sluice and we therefore beg to submit that in that case our garden and wet lands under the tank will lose their only source of water supply and are therefore sure to fail, in which case even if the Government pay a compensation of 50 or 60 thousand rupees the ryots of this village and the surrounding 5 or 6 villages will have to die of utter starvation and the cattle of these village of starvation and thirst. Unfortunately this year there was a very scanty rainfall and while the Government have been pleased to commence relief works in some places to provide against the impending famine, we have, on the other hand, been doomed to the deprivation of our very existence by the Engineering Department cutting off the only source of water-supply to our villages. If the Government treat us their poor, loyal, and hard working subjects who have now been forced by famine and pestilence to struggle for our very existence, where else can we go and to whom else should we represent our grievances?

5. We have already been put to much hardship by depriving us of the use of the water which flows off uselessly in connection with the Bangalore water-supply system and the Engineering Department has now entered upon the course of utterly destroyiug us by cutting off the only and scanty source of water we now have.

6. Under the above circumstances, we most humbly beg that your honor, will be graciously pleased to order the Engineering authorities to reconsider their project which is certain ruin to us and to direct that we should be permitted to use once more as was formerly the case the water of the tank and thus fulfil the gracious promise of His late Highness the Maharaja.

For which act of generosity, we shall as in duty bound pray for Your honor's longevity and uninterrupted prosperity.

We most respectfully beg to
remain,
Your most obedient and humble subjects.

ABSTRACT

The Petn is addressed to H.H. The Maharani Regent.

State that they are in receipt of the Private Secretary to the Regent's ~~office~~ Endorsements Nos: 516, 659, 797 of 22-1-96, 31-3-96 and 20th May — and Chief Engineers Endt 20107 of 13.11.98 that they submitted a pet to Govt on 28-4-96, that it has not been disposed of as yet; that they were irrigating their lands (wet & gardens) below the Hesara

Dewan paid a visit to their place he informed them that their question was under the consideration of Govt, and ordered them (petrs) to use the water flowing through the sluices, that they are now given to understand that the Public Works authorities intend closing the said sluices, that if the said intention is fulfilled their main source of water supply is lost which results in a total deprivation of their livelihood for themselves & fodder & water to their cattle, that now alone they are labouring under many difficulties as they are not allowed to use the waste water of the Hesaraghatta tank & so pray that the P.W. authorities may be ordered to reconsider their decision and that they may be allowed to use the water of the tank

Sir,

With reference to your memorandum No. Pet F 78-99 dated the 17th April 1900, forwarding for report the petition received from Shanbhog — Krishnappa and others of the Hesserghatta village, in the Nelamangala Taluk, praying that water for irrigation purposes may be supplied to them from the Hesserghatta tank, I have the honor to report that

The

petitioners were being allowed the use of the leakage water, issuing from the two Sluices of the Hesserghatta tank, for cultivation purposes. But since the Civil and Military Station came in for a share of the water supply, it has been found necessary to close all outlets for irrigation and Conserve the tank water entirely for ~~the purposes of~~ supply to the City and the Station. The petitioners demur to such a Step being taken and the present petition is the result of measures ~~taken~~ taken by the Executive Engineer, Hesserghatta Water Supply Division, to close the Sluices permanently. Copies of a Memo drawn up by that Officer and letter No. 118 dated the 30th August 1900 from the 2nd Assistant Commissioner, fully explaining

The

the facts of the case are herewith submitted for information.

2. In reply to a similar petition presented to this office, the petitioners have been informed that it is not possible to spare the tank water for purposes of irrigation.

I have the honor to be
Sir
Your most obedient servant

Dy. Commissioner,
Bangalore District.

Memo

There are two mud Sluices in the Hesserghatta tank. These were built with a view to — utilizing the water of the tank for irrigation also, should there be surplus. Since the Military Department have also joined us, all ideas of using the water for irrigation — purposes have been practically given up. Under orders from the Chief Engineer, the Water Supply Department are taking steps to close up the Sluices permanently. Till now, a small quantity of water was leaking out of these Sluices and the ryots of Hesserghatta were allowed to make use of that water just as they liked so long as it did not interfere with the operations of the Water Supply Department. What the ryots now pray is, that these Sluices should not be built up and that we —

Continue which is a most preposterous claim. There is no record in this Office to show what promises have been made by the Dewan or by His Highness the late Maharajah. If I am not mistaken, the Government, in view to the loss which the ryots would suffer by being deprived of the use of the tank, which was no doubt theirs in years gone by, have ed enough to reduce the assessment the lands originally irrigated by

Sir

With reference to the Secretary's Official memo No. 1820 of the 12th march last to your address forwarding for report a printed memorial from the ryots holding lands below the Hesserghatta Tank, I have the honor to inform you that the petitioners owned wet and Garden lands below

The

purpose of water Supply to the people of Bangalore Town

II When the tank was enlarged, the question of Continuance of water for irrigation purposes was Considered by the Government and the two Sluices were constructed with the object of irrigating the petitioners' lands, if, after meeting the requirements of the Bangalore Town, there was a Surplus in the Reservoir. But Subsequently, the allowance of water for irrigation purposes was withheld under Government Orders quoted in the margin* in Consequence of the decision that the Civil and military Station Should also be Supplied with the water of the tank. From the Executive Engineer's Memo, it would appear that measures are now being taken to close the Sluices altogether. The petitioners have no written orders nor is there

* $\frac{27}{2}$ dated the 14th December 1895.

- there anything on record to prove that any absolute promise of letting water for irrigation, was ever made by Government. If any verbal promise had been made by His Highness, the late Maharajah, as asserted in the Memorial, it must have been conditional on the expectation of Surplus after meeting the drinking requirements.

III As under present arrangement, there is no probability of such Surplus, the petitioners' prayer is utterly fromdless.

IV The Wet and Garden assessment, which the petitioners were praying, have been reduced to Variety (ie) Bengar rates pending a reclassification by the Revenue Survey Department under Government Orders Conveyed in Proceedings No. 1359-60/166-93 of August 1896. The assessment has not yet been reclassified. It seems expedient

to

drawing the attention of the Revenue Survey Department to take early action if possible, to reclassify the petitioners lands for the purpose of imposition of permanent dry assessment on the lands.

To *The Secretary to the Government of Mysore*
General & Revenue Department.

SIR,

In reply to your/his No: 3157 / P.F. 78-99 of the 15.. instant, forwarding copy of Bangalore District Deputy Commissioner's No: 442 of the 15. Ultimo, in re the supply of water from the Hessarghatta Tank for irrigation purposes, asked for by Shanbog Krishnappa & others of Hessarghatta Village, & calling for a report as to how the water stands at present, & whether water can be let out from the tank to the lands below it either in the form of leakage or otherwise, - I have the honor to inform you that no reply to your first reference was sent, as the Deputy Commissioner replied to it direct, in his No: 442 of the 15. Ultimo, to your address. I have nothing to add to that letter & the reports by the Executive Engineer, Hessarghatta Water Supply Div & the 2nd Asst: Commissioner (thereto attached), which fully explain the facts of the case, & I concur in the opinions therein expressed by those officers, that no water can be given from the Reservoir in future for irrigation purposes.

II. A reclassification of the lands under the Tank by the Revenue Survey Department, will apparently be necessary, if ryots are now paying wet rates

I have the honor to be,
Sir,
Your most obedient Servant,
J. Cameron Colonel,
Chief Engineer of Mysore.
